## PROJECTS

---

- **Title:** PE-HE-AD (Pet-Health- Adoption)
- **Technologies used:** HTML, CSS
- **Description:** The website is related to the pets and the objective of this project is divided into 4 modules
  - Module 1: The website includes a module dedicated to helping users find nearby pet clinics based on their location selected. This feature allows users to search for pet clinics within a specific radius and provides detailed information about each clinic, including services offered, operating hours, and contact details.
  - Module 2: The platform offers a comprehensive marketplace for the buying and selling of pets. This module allows users to browse through a wide variety of pets available for adoption or purchase, with detailed profiles for each pet, including breed, age, health status, and temperament. Sellers can easily list their pets by providing essential information and uploading photos, ensuring potential buyers have all the necessary details.
  - Module 3: The project includes a dedicated module for the sale of pet accessories, providing a one-stop shop for all the essential items needed for pet care. This module offers a wide range of products, including food, toys, grooming tools, bedding, leashes, and more, catering to different types of pets such as dogs, cats, birds, and small animals.

- In Module 4: This module is only for gaining information about the pets. The platform includes information about pets where it includes its safety measures, Breed information, detailed information of vaccines, doctor suggestions etc.
